

SmartDevs

Summer Industrial Training

Maharajganj Ghazipur, Uttar Pradesh
+91 9354027503

Our mission

To empower BCA and Diploma students with real-world technical skills, industry exposure, and career confidence — transforming beginners into job-ready developers through live projects, practical training, and structured interview preparation.

We are committed to bridging the gap between academic learning and real industry expectations. Our goal is not just to complete a syllabus — but to build developers who can confidently work on real-world projects from day one.

Why Choose SmartDevs?

Primary activity name

At SmartDevs, we don't just teach coding — we prepare you for real industry challenges. Our training is carefully designed to bridge the gap between classroom learning and real-world job requirements.

Expert Mentors – 7+ years real development experience.

Flexible Batches – Weekday & weekend options available.

Industry Aligned Curriculum – Learn exactly what companies demand.

Weekend Offline Support – In-person doubt clearing & practical guidance.

Affordable Fees – Quality training at student-friendly pricing.

Placement Support – Mock interviews, resume building & job referrals.

Job-Ready Tech Programs

Master in-demand technologies with practical training, live projects, and complete job preparation.

01

MERN Stack + MySQL

Master full-stack development by building real-world web applications using MySQL, Express, React, Node.js, and MySQL — with hands-on projects and job-ready training.

02

PHP Laravel + MySQL

Learn professional backend development with Laravel and MySQL — create secure, dynamic web applications and industry-level projects.

Web Development Roadmap - PHP + Laravel

Step-by-step roadmap from PHP fundamentals to advanced Laravel development — including database design, REST APIs, authentication, and real-world project deployment.

Course structure

Understand the core foundations of how the web works — from internet infrastructure to client-server communication

- Fundamentals & OOP
- MySQL Database Design
- Laravel Framework - MVC
- REST APIs & Authentication
- Live Project Development
- Deployment & Hosting Basics

HTML

- Page Structure & Boilerplate
- Text Formatting, Lists, Tables
- Images, Audio & Video
- Forms & Input Types
- Semantic HTML Tags

CSS

- Selectors, Units & Colors
- Box Model & Layout Basics
- Responsive Design
- Basic UI Styling

JavaScript

- JS Variables & Data Types
- Functions, Conditions & loops
- Arrays & Objects
- DOM Manipulation
- Events Handling
- Fetch API Basics
- JSON & Async Fundamentals

PHP

- PHP Syntax & Variables
- Forms Handling (GET/POST)
- Sessions & Cookies
- File Upload Handling
- Connecting PHP with MySQL
- Database Concepts & Tables
- CRUD Operations
- Primary & Foreign Keys
- Joins & Relationships
- Import / Export Database

Laravel

- Installation & Folder Structure
- Routing & Controllers
- Blade Template Engine
- Models & Database Migration
- CRUD Application
- Form Validation
- Authentication Basics
- REST API Creation

Web Development Roadmap - MERN With MySQL

Step-by-step roadmap from core JavaScript to advanced MERN development — covering MySQL, Express, React, Node.js, APIs, authentication, and complete full-stack project deployment.

Course structure

Understand the core foundations of how the web works — from internet infrastructure to client-server communication

- JavaScript Fundamentals & ES6
- MySQL Database Design & Integration
- REST APIs & JWT Authentication
- Middleware & Validation
- Live Backend Project Development
- Deployment & Hosting Basics

HTML

- Page Structure & Boilerplate
- Text Formatting, Lists, Tables
- Images, Audio & Video
- Forms & Input Types
- Semantic HTML Tags

CSS

- Selectors, Units & Colors
- Box Model & Layout Basics
- Responsive Design
- Basic UI Styling

JavaScript

- JS Variables & Data Types
- Functions, Conditions & loops
- Arrays & Objects
- DOM Manipulation
- Events Handling
- Fetch API Basics
- JSON & Async Fundamentals

Express JS

- Node Basics
- NPM Usage
- Express Installation
- Routing & Controllers
- Middleware & Validation
- REST API Fundamentals
- Environment Variables (.env)
- Authentication (JWT)
- Password Hashing (bcrypt)
- Error Handling & Logging
- Rate Limiting & CORS
- File Upload Handling

Course Pricing & Benefits

Industry-focused training programs designed to deliver maximum value at student-friendly pricing.

Exclusive Student Benefits

- **Lifetime Project Code Access**
- **Mock Interviews & Resume Guidance**
- **Project File for College Submission**
- **Multiple Real-World Projects**
- **Placement Support**

01

MERN Stack + MySQL - **2599**-/ Only

02

PHP Laravel + MySQL - **1999**-/ Only

Register Your Seat!

We believe financial pressure should never stop a student from learning. That's why we've designed a flexible and transparent enrollment system that allows you to secure your seat with a small registration amount and pay the remaining fee when classes begin.

Start your career journey with just **₹499.**

Confirm your seat today and pay the remaining fee only when your batch begins — because your growth matters more than upfront payments.

Next 3 months can change your life — but only if you take action today.

Register now. Become job-ready. Get hired..

So don't wait for opportunity. Create it.

Block your seat now, start building your skills, and let's turn you into a job-ready developer.

At SmartDevs, we don't just teach — we prepare you for interviews, real projects, and real placements. And to make it simple for every student

Today with just ₹499. The remaining fee? You pay when classes begin. Transparent. Student-friendly. No pressure.

Thank you!
